

Volunteers/ Judges needed for the Miami-Dade Science and Engineering Expo January 22, 2011 at the Miami Dade College – North Campus

The Division of Mathematics, Science, and Advanced Academic Programs, would like to invite you and your colleagues to serve as judges at the *Miami Dade Science and Engineering Expo* which will take place on Saturday, January 22, 2011 at Miami Dade College - North Campus.

Students from grades 3 through 12 will be competing in the areas of science, technology, engineering, and mathematics through three venues: (1) the South Florida Regional Science and Engineering Fair, (2) the Elementary Science Fair, and (3) the SECME Olympiad and Festival. This event is the culmination of the tremendous work our students, teachers, parents, and community sponsors have made in helping students prepare and conduct scientific investigations. The highlight of these efforts is an opportunity for students to present their projects before the scientific community, and for many, this is truly a life changing experience. In order to make this event a success, your time and expertise is much needed and appreciated.

To become a judge, please download the judging form (link below), complete the form and return them via e-mail, or register online at the following locations by Monday, November 29, 2010:

SECME Olympiad and Festival:
