“Nothing says good engineering like good engineering”

September 14, 2011 • Lake Mary

6 PDHs

Amid the recent fluctuations in Florida stormwater policy, there is one constant for the stormwater design engineer – good engineering remains a requirement. The stormwater management design engineer remains liable for his design, when regulations are reduced or if they go away altogether.

For more information and to register, please click [here](#).**FICE Roadside Design**

September 20-22, 2011 • Lake Mary

18 PDHs

Who should attend?

Engineers, designers, and technicians interested in roadside design and those looking to refresh their knowledge.

FICE is pleased to offer a three-day seminar that teaches how to design safe roadsides. This course has been recently updated to reflect the best design practice throughout the country as well as here in Florida. Topics include clear zones, roadside barrier design, median barriers, breakaway devices, bridge rails and transitions, crash cushions, economic analysis, roadside safety in urban areas and work zone applications of roadside design.
