

FES PARTNERS WITH MNSPE TO OFFER CIVIL PE REVIEW COURSE – Registration Deadline August 23, 2010

FES is pleased to announce we will again partner with the Minnesota Society of Professional Engineers to offer an online civil PE review course. All FES members will receive the discounted member rate for the course.

The class meets for 11 sessions over seven weeks. Topics covered include concrete, construction, engineering economics (brief review), fluid mechanics, highway engineering (two sessions), hydrology, mechanics of materials and IBC loads, open channel flow, soils and foundations, timber/steel design, waste facilities engineering. This class does not cover seismic or land surveying.

For more information, visit http://www.fleng.org/seminars.cfm?event_id=461 or contact Mary Detloff, CAE, Minnesota Society of Professional Engineers at 651/457-2347 or mdetloff@mnspe.org.
