

Advanced Work Zone Traffic Control

20 PDHs of technical engineering credit.
FES is FDOT approved provider No. 12.
FES is FBPE approved provider EXP 0003823.

COURSE PREREQUISITE:

One year of experience in work zone traffic control or one year being responsible for work zone traffic control plan development.

REQUIREMENT:

This course is required for personnel with responsibility or authority to decide on the specific maintenance of traffic requirements to be implemented. These positions include the following:

- (a) The engineer responsible for the work zone traffic control plan development;
- (b) The work zone traffic control supervisor.

This course is not required for submitting Traffic Control Plans for utility work, unless such persons have to sign and seal the Traffic Control Plans in accordance with the UAM.

WHO SHOULD ATTEND?

- Professional Engineers and design consultants
- Contractors who supervise work zone traffic control areas
- FDOT design and construction engineers

YOU WILL LEARN HOW TO:

- Adapt typical control plan layouts to specific site conditions
- Design and manage traffic control plans (TCPs) of varying complexity
- Identify relevant fundamental and human factor principles that impact TCP design
- Apply workable concepts and techniques in the design, installation, and maintenance of TCPs
- Appropriately utilize work zone traffic control devices

Course Schedule

Day 1 & 2

- 7:30 a.m. Registration Desk Opens & Continental Breakfast
- 8:00 a.m. Course Begins
- 12:00 p.m. Lunch Provided
- 5:00 p.m. Course Adjourns

Day 3

- 7:30 a.m. Registration Desk Opens & Continental Breakfast
- 8:00 a.m. Course Begins
- 10:00 a.m. Exam
- 12:00 p.m. Course Adjourns (no lunch provided)

QUESTIONS? Please Call 850-224-7121.

**January 12-14, 2010
Jacksonville**

SPEAKER:

Bill Little, PE, Jacobs Engineering Group, Inc.

Location:

Jacksonville Marriott
4670 Salisbury Road • Jacksonville 32256

Tax Deductibility: Eligibility for tax deductions may apply. Check with your accountant regarding expenses.

FES (and all other CE providers) is now required to report both your Laws and Rules PDHs and your Area of Practice PDHs to the Department of Business and Professional Regulation/Florida Board of Professional Engineering.

Timeline for reporting PDH credit for engineers

- FES has 10 business days after an event to report PDH credit
DBPR then has 48 hours to post your credit to their website.
As soon as FES reports your PDH credit, we will notify all event registrants by e-mail that their PDHs have been reported.
Within the next 48 hours, your PDH credits will be visible on the MyFloridaLicense website.
Remember to access the "view" mode vs. the "report" mode when checking your PDHs.

Possible delays

- FES notifies you that you did not sign-in or sign-out properly.
If you attended an event with over 700 attendees, FES will need more processing time.

If your credits still do not appear after receiving our posting notification e-mail and the 48-hour grace period, please contact FBPE at 850-521-0000. Please feel free to contact the FES Continuing Education Department at seminars@fleng.org if you have questions or need assistance.
