

# ***K-12 Student Involvement Committee***

## **Official Responsibilities of the Committee**

The purpose of this committee is to develop and maintain programs that:

1. Expose all students to engineering achievements and the importance of engineering innovation in the advancement of civilization.
2. Provide opportunities for all students to participate in hands-on programs that involve engineering problem-solving techniques.

For those students who have the ability and the inclination, provide opportunities for increasing involvement in activities and programs that provide a deeper understanding of the engineering profession and that provide a foundation for college level engineering education.

## **Duties**

Members are asked to be the liaison between the schools and the volunteers in their chapter. They are to attend all Committee meetings, form relationships with contacts in the local school system, provide volunteers with presentation materials/tools, and develop/lead the local K-12 Committee.

## **Volunteer Time Commitment**

A maximum of one to two hours a month is requested for meetings and planning details.

## **Committee Meetings**

Committee meets monthly via conference calls.

## **FES Headquarters Contact**
